

# GREEN SPACE: NEWCOMER YOUTH CLIMATE FORUM

## 2023-2024 WORKSHOP SERIES

### WHO:

Newcomer Youth, Aged 14–29  
Conservation Halton watershed  
residents

### PROGRAM INFO:

Youth will take part in up to two workshops each month, held in person at Conservation Halton’s parks. Program participants will also complete a climate communications project to lead local change!

### WHY JOIN:

- Gain background knowledge about the current climate crisis and its local and global impact
- Learn how to use technology to collect and interpret environmental data
- Participate in nature-based climate solutions (e.g., tree planting, native seed collection, invasive species removal)
- Learn about Ontario’s plants and animals through outdoor learning opportunities
- Explore career paths related to climate science and environmental monitoring
- Opportunities to earn OSSD volunteer hours

### TO APPLY:
